Good morning, Jean-Jacques.

There have been no land use permit applications submitted, or environmental review work initiated, regarding the referenced project or location.

Let us know if you have additional questions.

Thank you,
Chuck Beatty
Planning Director

Amador County Planning Department
810 Court Street
Jackson, CA 95642

Dear Sir or Madam,

I am contacting you regarding the **Buena Vista AI Factory project**, located at **4655 Coal Mine Road, Lone, CA 95640**, associated with **NewYork GreenCloud (NYGC)**.

Recent information suggests that a **Use Permit application** may have been submitted or is being finalized for this project.

Could you please confirm:

- whether a **Use Permit application** has recently been received from **Buena Vista Biomass Power LLC / NewYork GreenCloud**;
- the **filing date** and the **application or case number**, if available;
- what specifically the application covers — for example, **the biomass power plant, the AI data center, or both components**;
- whether the application concerns the **historical 18 MW biomass facility and/or the new 41 MW AI data center**;
- whether the application is **currently under review** or has been **deemed complete**;
- and the **anticipated timeline** for review and approval.

I understand that the project includes **both a biomass power plant and an adjacent AI data center**. **I am particularly interested in confirming whether the Use Permit application submitted to the Planning Department covers only the biomass facility, only the data center, or both components together.**

I appreciate that some documents may not yet be publicly available. My goal is simply to verify whether an application has officially been received and to understand its **scope and current status**.

Thank you very much for your time and assistance.

Kind regards,

Jean-Jacques CAUBET
